

## Glass Fused Hermetic Through Bulkhead

Connector derivatives from the bulkhead feedthrough range.

**Simplified use  
Quick & Easy**

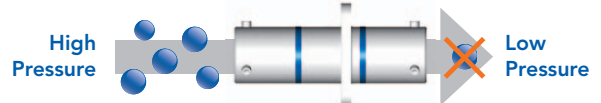

- Each face of the receptacle mates to a plug.

Quick cable integration.  
Easy maintenance.

**Secured pressure  
differential**

- Glass fused insert enables it to resist high pressure differences, even when unmated. Leakage 1,000 times lower than standard connectors.

**Male/male interface**

- Each side of the receptacle is populated with male contacts. For male/female options, see the reinforced sealing bulkhead range.
